

WE'VE GOT THE

# Recipe for Success

At JFH Academy, cooking presents a fun opportunity to learn about nutrition, math, science, and reading. It's all part of our Creative Curriculum that has worked to prepare kids for their future professions for over 70 years- We teach them skills that will actually help them in the real world, because knowing how to convert units of measurement means that your child will be able to make more than just ramen when they leave home. Their future starts here.

To register your child in our 12-month academy or to ask for more information please visit  
[www.JFHAcademy.com](http://www.JFHAcademy.com)

SMALL CLASSES

# BIG IDEAS

What if in a single week you could be a scientist, an architect, a chef, a writer, a musician, AND an explorer? For over 70 years JFH Academy has empowered our students to be all of those and more. No parent wants to see their child struggle to keep up, which is why our program guarantees your child's success regardless of his or her academic level. Our small class sizes coupled with a holistic and innovative teaching approach gives children the head start they need in this fast paced world.

# EVERYONE HAS TO START SOMEWHERE

Believe it or not, your doctor's preschool was as important as their medical school. Without a solid educational foundation, they couldn't have made it through any of their studies. With customized curriculums and small class sizes, students at JFH Academy are given individualized and innovative educations that prepare them for their future professions. Take it from a school that has been prepping children for bright futures for over 70 years, the path from Pre-K to Pre-Med starts here.

To register your child in our 12-month academy or to ask for more information please visit

For over 70 years students at JFH Academy have been encouraged to creatively express their ideas and feelings and turn them into something tangible. Their art is more than just something you can proudly hang on your fridge, it's a way for them to develop fine motor skills, make choices, take liberties, and discover new ways of thinking. We view their futures as masterpieces, we're just helping them sketch the outline

# JUST IMAGINE

Imagine your child attending a school where they are celebrated for their differences, their voice matters, their ideas and self-expression encouraged, and their instructors have a meaningful bond with them. Imagine an environment where economic status and academic level don't dictate your child's success. This place exists. Over 70 years ago, JFH Academy saw a need in the community and created a learning environment with small class sizes combined with a holistic and innovative teaching approach. Our classrooms are as diverse as our curriculum, just like the real world your child will one day enter. Their future starts here.
